

Solenoid Coil:

Vendor of coil used with Hot Gas defrost system has modified the construction of the solenoid coil. This change has improved part quality but has no impact on the performance of the coil.

The new part is a direct replacement and can be used on any OASIS dehumidifier supplied with a SANHUA hot gas system

	Original	Revised
Vendor Reference	FQ-436	FQ-A0522G
OASIS Part Number	032198-102	032198-302
Appearance		
Overall Size (mm)	39 x 32 x 27	34 x 33 x 25

Compressor:

Tecumseh have introduced a new generation of “High Efficiency” compressors for the OASIS D125 & D165 models of dehumidifier.

Part number details are given in the table below – please note the following:

- Relay and overload part numbers have changed
- Original compressors are no longer available – spare parts orders will be shipped with the revised compressor part numbers
- All finished goods with serial numbers starting “1246P” or higher are equipped with the revised compressors

MODEL		D125		D165
