

OASIS

**RFX**

BOTTLE WATER COOLER

# RFX

## Special Features

- REMOVABLE RESERVOIR
- Inside-Out cooling probe
- Efficient and proven technology
- High quality = longevity
- Great quality-performance-price ratio
- WaterGuard
- Cup Dispenser
- Range of hot tanks available

Sophistication is found in clean, simple design and the OASIS **RFX** exudes this.

The blow-moulded polyethylene cabinet sustains its out-of-the-box appearance over time whilst aesthetically remaining contemporary. We regard the **RFX** as the perfect solution for corporate campuses, healthcare, and education facilities.

The 'inside-out' cooling probe design used throughout the entire range of REMOVABLE RESERVOIR coolers ensures a more efficient cooling method, conserving energy and eliminating condensation within the cooler.

WaterGuard offers protection against water leaks from cracked bottles and ensures that air-borne pollutants do not enter the reservoir. The self supporting cooler chassis can be quickly and easily removed from the cabinet to simplify the maintenance and servicing process. The REMOVABLE RESERVOIR system simplifies the sanitization process - just replace the water contact parts with pre-sanitized components. Requires no replacement of disposable parts or use of messy chemicals at your customer site.

Reusable Sanitization kits available for this model.
