MW8SBFY RW ■ Manual, Refrigerated

Bottle Filler

AquaPointe Hydration Station is the perfect solution for hydrating those high traffic areas. These models are manually activated via the touch-button.

Designed for urban settings, the sloped top prevents trash being placed on the unit. Additionally, the powder-coat steel finish is highly-durable. This unit can be installed right against the wall to save-space. This unit can be installed right against the wall to save-space. Easily serviced with removable lower panel for quick access to filters, electronics and chiller.

AquaPointe Hydration Station comes as standard in white. There is ample space for potential branded wrapping to add commercial value to this unit if you so wish.

Chilled and Non-chilled models are available.

The cooling system uses R-134a or R-290. The R290 refrigerant is mandatory for countries subject to the F-Gas Directive. R134a refrigerant available for other markets.
