

**VERSAFILLER P8EBFTY 504959 + 507023**  
Hydration Station Combo

Contactless,  
Refrigerated

This surface mount hydration station combo has entirely contactless. The bottle filler includes an electronic sensor for a contactless (touch free) activation and a 30 second shut off timer. The drinking fountains are activated via infrared sensors below the nose.

The Bottle Counter conveniently displays the number of times the unit has been used, encouraging the refill of sports bottles.

Key VersaFiller bottle filler moulded components shall contain Freshield, which utilises a silver-based antimicrobial compound that reduces the growth of micro-organisms and mildew to protect the surfaces from discolouration, odours and degradation. Suitable for public building, gymnasiums, sports complexes, hospitals, schools, and offices.
