

From 1st August 2024, OASIS have standardized all KALIX & AQUILA Hot Tanks.

Previously there were different P/Nrs used for Non-Carbo & Carbo versions of KALIX & AQUILA Hot Tanks. Although both Hot Tanks were of similar construction, there were different lengths of tubings & fittings used. These tubings & fittings have now been standardized to suit both models.

The below table outlines the changes of part numbers:

Note 1: Some customers such as Eden Divisions still use 2 Pce Hot Tanks.

Note 2: UK WRAS approved HT's have a different P/Nr as it is necessary to use John Guest fittings only.

HT TYPE	Old KALIX P/N	New P/N (All KALIX & AQUILA)	
		EURO	UK (WRAS)
2-Pce HT3A	040192P011	040192P012	040192P012J
1-Pce HTXB	043393P002	043393P004	043393P004J

Summary of current KALIX HT's.

HT3A (2 Pce HT)

Eden divisions only.

040192P012 – All KALIX /AQUILA Models - EURO
 040192P012J – All KALIX /AQUILA Models - UK

HTXB (1 Pce HT)

All other Customers

043393P004 – All KALIX /AQUILA Models - EURO
 043393P004J – All KALIX /AQUILA Models - UK

(The above changes apply to KALIX & AQUILA only.

The ULTRA Bottle Cooler will continue to use it's own 2 Pce HT3A 040192P001D.)
