

OASIS DANU TOUCH.

Convertible: Mains-Fed / Bottled Water Cooler

OASIS Danu Touch is the latest addition to the Danu family. With all the same features as before; this convertible watercooler has the addition of a touch control panel, that provides refreshing water

Choose to have your water come from a bottle or directly from the mains supply.

Purposefully designed with convenience in mind. Fill large sports bottles or a small glasses. A large dispense height and an open sided alcove means there are no barriers to get hydrated.

This matt black unit with a glossy interface gives OASIS Danu Touch a timeless, elegant appearance. Available in Hot + Cold, and Cold + Ambient.
